

# P!NK = !ΣH

THE SUPERLATIVE TRIBUTE TO P!NK

P!nk-!sh celebrates multi Grammy Award winning artist, P!nk, like no other. The show encapsulates all the fun, ferocity and feel good energy you would come to expect from a live P!nk show, whilst capturing the very essence of what makes P!nk unique; an indomitable strength, coupled with an alluring vulnerability (and a little craziness to boot!).

Calli Malpas has certainly made huge waves since hitting the tribute market in 2023 and is already considered one of the top tributes to P!nk in the UK and Europe, receiving acknowledgement from P!nk's own guitarist, Justin Derrico as being "F%\*king Awesome".

With a back catalogue as impressive a P!nk affords, you can expect to hear the likes of "Who Knew", "Get The Party Started", "So What" and "Raise Your Glass" (to name but a few), but it is always wise to expect the unexpected as P!nk-!sh is committed to keeping the audience on their toes and of course, on their feet!

A vibrant, energetic powerhouse tribute artist, Calli has been stunning international audiences with this stand out production, honouring one of the most seminal female artists of our generation. She has been hailed as "The closest thing to P!nk I've ever experienced" always going above and beyond to maintain the integrity of the show and ensuring it pays homage to P!nk and all that she encompasses, in the most laudatory fashion.

Being an imitation artist to someone who has sold over 135 million records worldwide, has the 2nd highest-grossing tour by a female artist and who was named 'Artist of the 2000s Decade' by Billboard is no mean feat, but rest assured, it is an honour which propels this show to be the best it can be and guarantees the audience an experience they will want to repeat!

- It's a "cornucopia of pleasure!"
